### Test UID Creation Process

If you want to make use of your own UIDs (for testing services like e-KYC), you can request for creation of a test UID by writing to [community.tc@uidai.net.in](mailto:community.tc@uidai.net.in) from your registered e-mail id (email id registered for the UID – which is mandatory). You should not request for a test UID for another person. Test UID creation process is time consuming and you should provide minimum 20 days for the activity to get completed. Any follow ups after 20 days, should be done to the above mentioned mail id ONLY. Please note that, the test UIDs will be created at UIDAI's discretion and UIDAI reserves the rights to deny any such requests for any reasons which will not be disclosed to the requester
